

SEVIA DWI YANTI

Software engineering

Sukabumi, Indonesia | Email: seviadwynt@gmail.com | phone: +6281239116946

SUMMARY

I am a fresh graduate in Software Engineering Technology from IPB University with a strong interest in programming, both in web and mobile development. With great enthusiasm for this field, I continuously develop my skills through various projects. I possess a strong sense of responsibility and am able to work well both independently and in a team.

EXPERIENCE

System Analyst

Aug 2025 – Nov 2025

PT Simex Pharmaceutical Indonesia – Sukabumi, Indonesia

- Analyzed business requirements and translated them into functional specifications.
- Designed system workflows, process diagrams, and technical documentation.
- Coordinated with developers and UI/UX teams to ensure system alignment with user needs.
- Conducted testing and validation to ensure quality and reliability of system features.

UI/UX Developer Intern

Jan – Jul 2025

PT Amerta Indah Otsuka – Sukabumi, Indonesia

- Applied design thinking and UX design principles to improve user flow.
- Developed wireframes and prototypes in Figma.
- Implemented UI design into functional code using the Angular Framework.
- Built backend features using Node.js and Express.

Fullstack Web Developer Intern

Jul – Des 2024

PT Anugrah Eka Gemilang – Bogor, Indonesia

- Observation of needs analysis for the creation of the STP Job Portal website.
- Created wireframes and interface mockups using figma.
- Implemented the design into the website using Tailwind CSS.
- Developing backend using laravel framework.

Assistant Lecturer – IT Project Management

Aug – Des 2024

Sekolah Vokasi IPB University

- Accompanied lecturers during lectures.
- Assisted in managing the class.
- Corrected assignments and exam results before providing them to students.
- Prepared lecture materials such as presentations, modules, or worksheets.

Mobile Developer Cohort Bangkit Academy

Feb – Jul 2024

Mobile Developer

- Learned mobile app development using the Kotlin language, from beginner to intermediate level.
- Working on project submission after every milestone.
- Participate in working on capstone projects from wireframe creation to code integration in Android Studio.
- Participate in soft skills activities organized by Bangkit Academy.

EDUCATION

Software Engineering Technology

Aug 2021 – Aug 2025

Sekolah Vokasi IPB University

IPK: 3,74

ORGANIZATION

Himavo Micro IT Community – Multimedia

2021 – 2023

- Actively participated in multimedia training.
- Participated in various work programs organized by Himavo, including IT Fest, MTE, and Upgrading.

PROJECT

Website AIOT Center

- Redesigned the features of the Enmix website.
- Migrated Enmix to a superapp.
- Implemented using the Angular framework and Node.js and Express.

Website STP Job Portal

- Analyzed the functional requirements of the STP Job Portal website.
- Designed the user interface (UI) to enhance user experience.
- Implemented the UI using TailwindCSS and the Laravel framework.
- Integrated the database using MySQL.

Website TalasGo

- Analyzed all requirements for the TalasGo website
- Developed both the user and admin sides of the website.
- Served as a system analyst, designer, and frontend developer for this project.
- Built the website using JavaScript and PHP frameworks.

Wearshare Application

- Capstone project from Bangkit Academy.
- Served as a fullstack mobile developer.
- Developed the application using Kotlin.
- Created to make it easier for people to donate clothes.

StoryApp Application

- Individual submission project at the intermediate Android level.
- Implemented login, registration, maps, and real-time story APIs.
- Developed using the Kotlin programming language.

Asclepius Application

- Individual submission project related to machine learning.
- Implemented cancer detection integrated with machine learning.
