

SEVIA DWI YANTI

Mobile Developer Enthusiast

Sukabumi, Indonesia | Email: seviadwynt@gmail.com | phone: +6281239116946

SUMMARY

I am a fresh graduate in Software Engineering Technology from IPB University with a strong interest in mobile development. I have worked on several projects using Kotlin and Flutter, strengthening my understanding of application architecture and clean coding practices. I am highly motivated to keep learning and committed to growing as a Mobile Developer Enthusiast.

EXPERIENCE

Mobile Developer - Cohort Bangkit Academy

Feb – Jul 2024

- Learned mobile app development using the Kotlin language, from beginner to intermediate level.
- Completed milestone-based mobile app projects, consistently meeting deadlines and quality standards.
- Built an Android application as part of a team capstone project, incorporating API integration and clean architecture

Fullstack Web Developer Intern – PT Anugrah Eka Gemilang

Jul – Des 2024

- Observation of needs analysis for the creation of the STP Job Portal website.
- Implemented the design into the website using Tailwind CSS and backend using laravel framework.

EDUCATION

Software Engineering Technology

Aug 2021 – Aug 2025

Sekolah Vokasi IPB University (IPK: 3,74)

PROJECT

WearShare – Capstone Project (Kotlin)

- Built a mobile application for sharing and donating pre-loved clothes, including user authentication, item listing, donation flow, and ML-based image classification for item validation.
- Developed using Kotlin and Android Studio with clean, modular code and collaborated with the team from planning to deployment.

Recruitment App – Personal Project

- Developed a recruitment application using Flutter with features such as job listing, user authentication, and application submission.
- Built the backend using Express.js and MongoDB, implementing REST APIs for managing job data and applicant submissions.

CERTIFICATE

- | | |
|------------------------------------|---|
| • Flutter for Beginners (Dicoding) | • Dart Programming (Dicoding) |
| • Android Intermediate (Dicoding) | • Machine Learning for Android (Dicoding) |
| • Kotlin Programming (Dicoding) | |

ORGANIZATION

Himavo Micro IT Community – Multimedia

2021 – 2023

Participated in multimedia training and contributed to Himavo programs such as IT Fest, MTE, and Upgrading.

SKILLS

Technical: Flutter, Kotlin, MySQL, MongoDB, Laravel, Node.js, Express, Angular

Tools: Visual Studio Code, Android Studio, Figma, Adobe Illustrator, Draw.io

Soft skills: Collaboration, Adaptability, Communication, time management
